EDUCATION

New York University

Abu Dhabi, UAE & New York, USA

Aug. 2019 - May 2023

BS in Computer Science, BS in Mathematics Class Rank: Magna Cum Laude CGPA: 3.987/4.000

Relevant Coursework: Applied Internet Technology, Data Management and Analysis, Natural Language Processing, Parallel Computing, Operating Systems, Computer Networks, Algorithms, Data Structures, Linear and Nonlinear Optimization

PROGRAMMING SKILLS

Skilled In: Python (Including Scikit-learn, NLTK, Pandas), JavaScript\TypeScript (Including Express.js, Node.js), React (Including Hooks, Redux, Routers), PostgreSQL\MySQL, GCP, HTML, CSS (Including Bootstrap) Familiar With: C++\C (Including MPI, OpenMP, CUDA), MATLAB, R, MongoDB, AWS, Heroku, Firebase

PROFESSIONAL EXPERIENCE

Software Development Engineer

Jun. 2023 — Present

Dubai, UAE

- Develop the backend for noon Food's marketplace system, specializing in catalog, search, and content management system(s)
- Led engineering efforts to revamp the order review system, specifying product requirements and coding the feature in Python and MySQL
- Optimize query performance for Google Cloud Platform (GCP) tools, including BigQuery and Spanner

Data Science Intern

Jun. 2022 - Aug. 2022

Selesnick Lab @ NYU Tandon School of Engineering

New York City, USA

- Optimized and parallelized MATLAB program for pair-sparse signal recovery, while simultaneously prototyping potential improvements for the base algorithm in Python (particularly Scikit-learn and NumPy)
- Visualized stepwise recovery process by using Matplotlib for Python and in-built plotting library for MATLAB
- Improved recovery accuracy by ~ 50 % for common use cases involving a signal-to-noise ratio of about 100

Full-Stack Development Intern

Jun. 2021 - Nov. 2021

Frich

New York City, USA (Virtual)

- Devised, designed, and developed web application for student recruits to register, log users, and chart progress through college ambassador program
- Built back-end REST API in Express.js, and served MySQL data to custom-built React application through React Routers with Axios
- Implemented JWT authentication, designed UX interface, and maintained hosting on Heroku with AWS (RDS)

RESEARCH EXPERIENCE

Machine Learning Research Assistant

Apr. 2021 - May 2024

Abu Dhabi, UAE

New York University Abu Dhabi

- Developed multilingual text-to-code translation models with Assistant Professor Riyadh Baghdadi (Computer Science)
- Implemented custom Python adaptation of GPT-J language model by using PyTorch, Scikit-Learn and TensorFlow, with testing indicating accuracy improvement of $\sim 15 \%$
- Web-scraped, cleaned, and analyzed code snippets and explanations from online tutorial websites (e.g., geeksforgeeks.com) to build novel consolidated dataset for Python and Java text-code pairs

Data Science Research Assistant

Sep. 2020 - Aug. 2021

Abu Dhabi, UAE

New York University Abu Dhabi

- Led coding and data analysis efforts for research group working with Assistant Professor Andy Harris (Political Science) • Cleaned up 10+ datasets and conducted quantitative analysis (e.g., linear regression models, convex hull construction) by
- using Python (particularly Pandas, NumPy, and Beautiful Soup) and R (particularly dplyr, ggplot2, and Shiny)
- Fuzzy-matched and geo-mapped election polling stations in Malawi to identify voting irregularities and incidence of fraud

PROJECT WORK

Extractive Text Summarizer for COVID-19 Medicinal Articles | bit.ly/3IRR9KO

Nov. 2021 - Dec. 2021

- Developed Python program that extracted machine-produced summaries of COVID-19 research articles through modified implementations of BERT and Word2vec vectors built using NLTK and Scikit-learn
- Designed and implemented custom **TF-IDF** vector generation technique that gave greater weightage to medical terms produced through the open-source **Termolator** tool
- Achieved precision and recall improvement of ~6 % over established baseline approaches (e.g., random sampling)

AWARDS AND HONORS

Intern of the Month (July 2021) Frich

Jul. 2021

Top 10 in Pakistan, National Mathematics Talent Contest Higher Education Commission

Dec. 2018
